### REASONS FOR ALLOWANCE

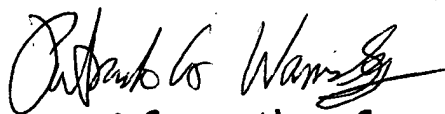

Claims 1-16 are allowed. Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in the Office action mailed on 01/07/2005 is hereby withdrawn.

The following is an examiner's statement of reasons for allowance: the references of record neither reveal nor render obvious the recited combination including the use of MIS transistors as switching elements in a parallel to serial converter.

U.S. Patent 6,845,032 to Toyoda et al provides a latch circuit having a PMISFET [3] and NMISFETs [4/5]. U.S. Patent 6,064,713 to Lebrun et al discloses a shift register using MIS transistors. U.S. Patent 5,543,791 to Riggio shows a parallel-to-serial converter using floating gate transistors. U.S. Patent 4,578,781 to Ogawa et al describes a MIS transistor circuit. U.S. Patent 3,090,034 to Fredericks et al discloses a parallel-to-serial converter.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
